- Other Afghan Dried Fruits

Why Afghan Dried Fruits?

- Natural taste and premium quality
- Careful sorting and export packing
- Competitive pricing
- Suitable for wholesale and retail markets

Main Markets

Sultanate of Oman • GCC Countries • Neighboring Countries • Other International Buyers

Premium Dried Figs

Afghan dried figs are a valued agricultural product known for their naturally sweet flavor, distinctive texture, and long-standing place in Afghanistan's agricultural heritage. Figs are cultivated across several provinces, with Kandahar recognized as an important center of production. Afghanistan has an established export market for figs, particularly in South Asia, with India serving as a major destination. With their natural qualities, traditional production heritage, and growing presence in international markets, Afghan dried figs represent the quality and agricultural richness of Afghanistan.

Pine Nuts (Pine Kernels)

Afghan pine nuts, commonly known as Chilgoza, are a premium forest product valued for their distinctive flavor, rich texture, and natural nutritional qualities. They are primarily harvested from the high-altitude forests of eastern and southeastern Afghanistan, where the natural environment provides favorable conditions for their growth. Traditionally collected by local communities, Afghan pine nuts have become an important export product and are appreciated in international markets for their premium quality and unique origin.

Afghan Almonds

Afghan almonds are a valued agricultural product known for their distinctive taste, natural quality, and rich agricultural heritage. Grown in Afghanistan's diverse climates and fertile regions, almonds are cultivated by local farmers and carefully harvested for domestic consumption and international trade. Their naturally rich flavor and versatility make them suitable for snacking, confectionery, baking, and a wide range of culinary applications. With Afghanistan's long tradition of almond cultivation, Afghan almonds represent the country's diverse agricultural potential and growing presence in international markets.

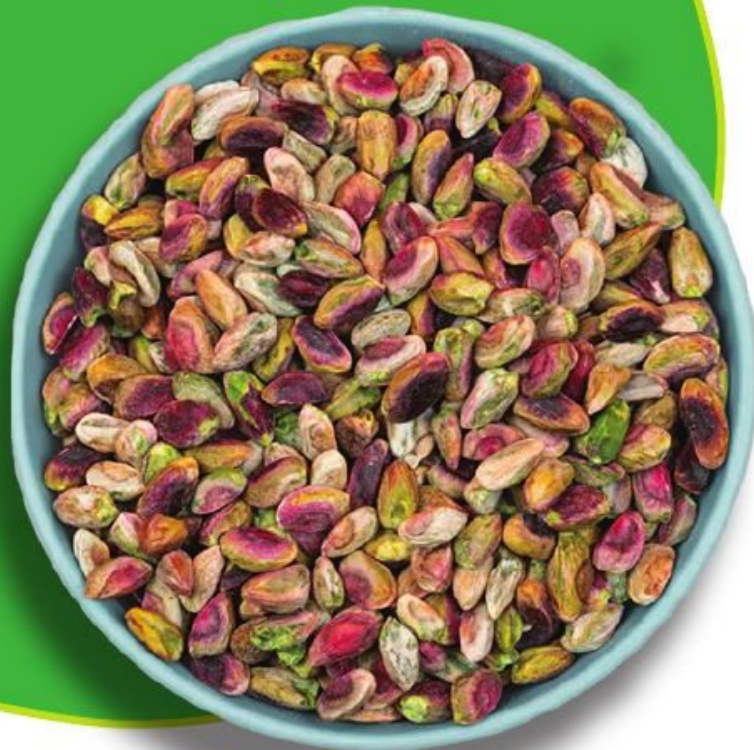

Afghan Green Raisins

Afghan green raisins are one of Afghanistan's distinctive dried-fruit products, valued for their natural sweetness, delicate flavor, and attractive green color. Traditionally produced from carefully selected grapes, they are naturally dried to preserve their characteristic taste and texture. Afghanistan's grape-growing regions provide favorable conditions for producing high-quality raisins, which are widely enjoyed as a nutritious snack and used in baking, confectionery, cooking, and traditional dishes. Afghan green raisins are also an important agricultural export, appreciated by buyers in regional and international markets.

Pistachios

Afghan pistachios are a premium agricultural product valued for their distinctive flavor, rich taste, and natural quality. Grown in Afghanistan's favorable natural environments, particularly in regions known for pistachio cultivation, they are carefully harvested and processed to preserve their characteristic taste and texture. Pistachios are widely used as a nutritious snack and in confectionery, desserts, baking, and traditional cuisine. With Afghanistan's natural growing conditions and long agricultural heritage, Afghan pistachios offer a high-value product with strong potential in domestic and international markets.

Afghan black Raisins

Afghan black raisins are a traditional dried-fruit product known for their naturally rich sweetness, deep color, and distinctive flavor. Produced from carefully selected grapes and dried to preserve their natural characteristics, black raisins are valued for their versatility and long shelf life. They are commonly enjoyed as a snack and used in baking, confectionery, cooking, and traditional dishes. With Afghanistan's long-established grape-growing and raisin-making traditions, Afghan black raisins represent an important part of the country's agricultural heritage and offer strong potential for international markets.

OUR IMPORTS

Edible Oil

A Versatile Choice for Everyday Cooking

- Light and neutral taste
- Rich in Vitamin E (antioxidant)
- Contains polyunsaturated fats
- Suitable for a wide range of cooking
- Affordable and widely available

Refined Sunflower Oil is a versatile, everyday cooking oil known for its light, neutral taste, which makes it ideal for a wide variety of dishes without overpowering other flavors. Rich in Vitamin E, a powerful antioxidant, and containing heart-friendly polyunsaturated fats, it offers a balance of health benefits and practicality. With a high smoke point of 220°C–230°C, it performs exceptionally well in high-heat cooking methods like deep frying, stir frying, and sautéing, while also being suitable for baking, curries, dressings, and even restaurant-style recipes. It is affordable, widely available, and scores 4 out of 5 for both deep frying and everyday cooking. For best results, avoid overheating or reusing oil excessively, store it in a cool, dark place, and use fresh ingredients to maintain quality and flavor.

OUR IMPORTS ALSO INCLUDE

**PP**

Polypropylene

HDPE

High Density Polyethylene

LDPELow-Density
Polyethylene**PET**

Polyethylene Terephthalate

OUR IMPORTS ALSO INCLUDE

INDUSTRIAL CHEMICALS

HIGH QUALITY INDUSTRIAL CHEMICALS FOR DIVERSE INDUSTRIES AND MANUFACTURING NEEDS.

OUR ADVANTAGES

- PREMIUM & CONSISTENT QUALITY
- COMPETITIVE PRICES
- TIMELY DELIVERY
- SAFE PACKAGING
- TECHNICAL SUPPORT

LABSA 96%

Linear Alkyl Benzene Sulfonic Acid 96%.
Used in detergents, cleaners and industrial applications.

SLES 70%

Sodium Laureth Sulfate 70%.
Widely used in liquid detergents, shampoos and personal care products.

SLS

Sodium Lauryl Sulfate.
Used in detergents, cosmetics, toothpaste and industrial formulations.

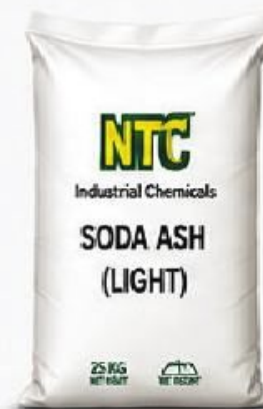

CAUSTIC SODA (FLAKES)

High purity Caustic Soda Flakes.
Used in soap making, textile, paper, water treatment and other industries.

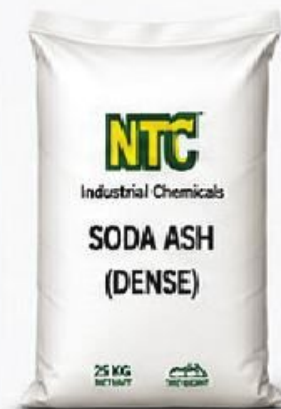

CAUSTIC SODA (LIQUID)

High • Concentration solution.
Used in industrial cleaning, chemical processes and water treatment.

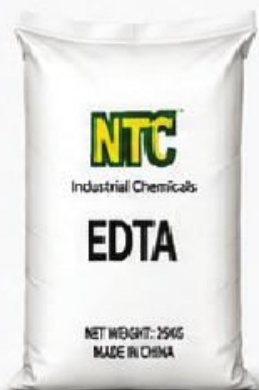

SODA ASH (LIGHT)

Soda Ash Light.
Used in glass manufacturing, detergents, and water softening.

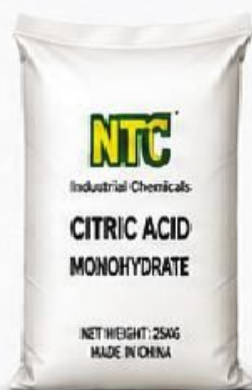

SODA ASH (DENSE)

Soda Ash Dense.
Used in glass, chemicals, textile, and various industrial applications.

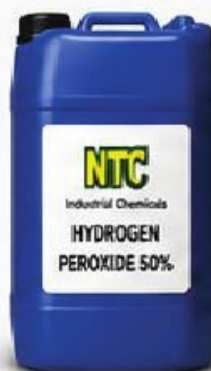

EDTA

Ethylenediaminetetraacetic Acid.
Used in water treatment, detergents, textiles and agriculture.

CITRIC ACID

High purity Citric Acid.
Used in food, beverages, cleaning products and pharmaceuticals.

HYDROGEN PEROXIDE 50%

50% Solution.
Used in disinfection and bleaching in industrial applications.

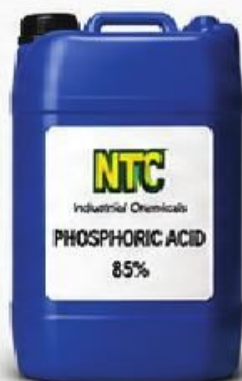

FORMIC ACID 85%

Formic Acid 85%.
Used in leather, textile, rubber and chemical industries.

ACETIC ACID

Glacial Acetic Acid.
Used in food, textile, pharmaceutical and synthetic industries.

PHOSPHORIC ACID 85%

Phosphoric Acid 85%.
Used in fertilizers, cleaning and industrial applications.

OTHER CHEMICALS

We also supply other industrial chemicals as per customer requirements.

INDUSTRIAL CHEMICAL PRODUCTS

Our industrial chemical portfolio includes a wide range of essential raw materials used across detergents, cleaning products, textiles, water treatment, agriculture, food processing, pharmaceuticals, cosmetics, paper, glass, and manufacturing industries. Products such as LABSA, SLES, SLS, Caustic Soda, Soda Ash, EDTA, Citric Acid, Hydrogen Peroxide, Formic Acid, Acetic Acid, and Phosphoric Acid are valued for their effectiveness, versatility, and broad industrial applications. These chemicals are available in different grades, concentrations, and packaging options according to specific customer and industry requirements. We focus on supplying reliable-quality industrial chemicals suitable for both large-scale manufacturing and specialized applications.

VISION, MISSION & GOALS

Our direction for sustainable international growth

OUR VISION

To become a trusted and internationally recognized Afghan trading company, connecting Afghanistan's premium products with global markets while bringing high-quality international products to Afghanistan.

OUR MISSION

To deliver quality products, reliable trade services and professional export-import solutions through trusted partnerships, competitive commercial terms, proper documentation and dependable logistics.

OUR GOALS

- Expand Afghan exports to GCC countries, Uzbekistan, Germany, Canada and other international markets.
- Build long-term partnerships with international buyers and suppliers.
- Maintain consistent quality, professional documentation and reliable delivery.
- Expand imports from China, UAE, Uzbekistan and other regional markets.
- Support the growth of Afghanistan's agricultural, industrial and export sectors.

CEO / FOUNDER

Abdul Rashid Nasiri

MANAGING DIRECTOR

At Nasirabad Trading Company, our goal is to connect the quality and natural value of Afghanistan with international markets. We are a professionally driven import and export company committed to delivering quality, reliability, and excellence in every aspect of our business. We work with trusted partners and carefully select products that meet high standards of quality and value. Through efficient sourcing, responsible trading, and dependable service, we aim to create long-term partnerships with customers and suppliers across international markets. Our commitment to integrity, transparency, and customer satisfaction is at the heart of everything we do, allowing us to build a strong and trusted presence in the global trading industry.
